

Flor Series: *Flor* is the Spanish word for flower and while these works are abstract in nature and construction the images created are representational of figurative work. For that reason the viewer is not necessarily left with an unfamiliar sense of what they are viewing. Completely organic in nature these works are constructed using the highest quality materials and the brushes used to build up the many layers of these works are handmade using natural fibers. The paintings themselves can be made in various sizes as well as in a variety of colors that follow the guidelines of color theory and artistic composition to meet the palette requirements of the patron; as a result their versatility is perfect for the home or office location into which they will be installed.
